> SYMPOSIUM VENUE:

**Friday, 22nd & Saturday, 23rd // CONGRESS
KIT: ROYAL TROPICAL INSTITUTE**
(Mauritskade 64 | 1092 AD Amsterdam)

Dear colleagues and friends,

Looking back on a very fruitful webinar in April 2021, we are now very happy to invite you to the 3rd live congress on Surgery of the Spastic Upper limb in April 2022. Hopefully we will be able to welcome you in the beautiful city of Amsterdam. Besides the 2 days conference there will also be a pre-course workshop. The Amsterdam University Medical Center has a brand-new skills center where you will be able to perform surgery on fresh frozen upper limbs under the guidance of our international and national faculty. For the therapists and rehabilitation physicians there is the possibility to participate as observers.

Friday and Saturday, we will provide an interesting scientific program in the historical building of the Royal Tropical Institute in Amsterdam. Of course, there will also be plenty of opportunity to catch up and exchange experiences during the welcome party on Tuesday and the Apéritif on Friday.

We hope to see you all in Amsterdam

The local organizing committee

Miryam Obdeijn, course chair, Jessica Warnink, Johan Vehof

Dear friends, Dear colleagues,

Four years ago, we met in Paris for an International meeting dedicated to Surgery of the Spastic Upper Limb, hosted by the Institut de la Main. The unexpected large audience and the enthusiasm of the participants demonstrated the need for more education and exchanges in this highly specialized field.

So a second meeting was organized in April 2019, hosted by Dr Paolo Panciera in Venice, gathering 260 participants from 38 countries.

I am extremely grateful to our colleagues from Amsterdam for organizing this third International Symposium. Again a large pannel of experts will share their experience with us, with a double focus on education, and on decision making which is one of the most challenging aspects of this specific surgery.

Looking forward to meeting you in Amsterdam

Caroline Leclercq

President of the First Symposium on Surgery of the Spastic Upper Limb

April, 22nd & 23rd 2022
pre-course workshop April 21st

PRELIMINARY PROGRAM

Congress spastic Upper Limb

Thursday, 21st April 2022 // WORKSHOP
